

FRC Western Canada is happy to announce it's available 2015 grants.

Founder's Grant

For each team that starts a new rookie team in the region (separate from your own, operating with different mentors and students), we will offer:

- \$2000 for the original team
- We will work towards securing rookie grants (not finalized, should be \$4000) for your new team
- We will attempt to assign your rookie team a sponsor if we find one

Provided:

- Your team agrees to help the team through their rookie year
- Your team takes on a project at the Regional that we assign (practice field, set up, etc.)
- Your rookie team accepts the help of industry engineers if we are able to find placements

In combination with the 2015 rookie grants, this would make registration costs very minimal.

5 Founder's Grants will be allocated for 2015

Outstanding Fundraising Grant

If a team raises \$5000 through corporate sponsorship, a \$500 grant is available to that team.

Provided:

- The sponsorship is a student-led initiative with planning & execution by students
- The team has a fully completed business plan
- The team has an overall budget of less than \$20000

2 Outstanding Fundraising Grants will be allocated for 2015
